### 履歴：

Ms. Chen joined Liu, Shen & Associates in 1998. She specializes in patent prosecution, including patent application, patent invalidation, and patent litigation with a focus on mechanical Engineering, material science, and computer accessories, etc.

Ms. Chen became a qualified patent attorney in 1998. She has prosecuted numerous patents to issuance and patent reexamination in China since 1998 and thus she has an extensive experience in patent prosecution.

Ms. Chen She has participated in several patent lawsuits including patent invalidation and patent infringement and she has recommended as a legal representative by the All-China Patent Agents Association.

Ms. Chen graduated from Beijing University of Aeronautics and Astronautics and had her bachelor degree in machinery manufacturing and processing technology on July 1983. Before joining this firm, Ms. Chen researched cutting tools in the Tool Research Institute of Beijing Machinery Bureau from September 1983 to September 1985 and engaged in the patent agent and the IP research work in Intellectual Property Service Center of the Ministry of Machinery Industry from September 1985 to December 1997.

Ms. Chen attended the “Summer School on Intellectual Property in Europe” organized by the Center for Inte

national Intellectual Property Studies (CEIPI) and obtained the Certificate on July 2011.
